Our Solutions

MANAGE

Lottery Management System (LMS)

An excellent addition to your existing lottery operations, our cutting-edge backend system seamlessly integrates with your current lottery system, offering a range of powerful benefits while minimizing investment and employee training. With live sales reports, intuitive inventory management and secure ticket validation, our solution optimizes your business for peak efficiency.

- 1 Tracking Ticket Sales With Ease
- 2 Integration With The Existing Setup
- 3 Optimise All Business Processes
- 4 Efficient Supply Chain Management
- 5 Error-Free Ticket & Winning Validation

EXPAND

iLottery Solution

Our iLottery solution enables you to go digital and deliver engaging content across mobile and web channels. It supports multiple local languages and offers seamless API-based third-party integrations. You can integrate it with your existing offline business and extend features like custom lottery games, user-friendly interface, certified RNG & responsible gaming modules, and multi-payment support.

- 1 Tracking Ticket Sales With Ease
- 2 Open Up New Revenue Streams
- 3 Offer Entertaining and Engaging Games
- 4 Zero Print Cost
- 5 Enable 24x7 gameplay

TRANSFORM

POS Lottery Solution

Our advanced solution supports a variety of POS devices that can manage end-to-end operations in any retail environment. You can choose from handheld POS devices, multi-purpose kiosks, and self-service terminals, all equipped with localized content for enhanced sales performance. By reducing ticket printing costs and boosting efficiency through our highly scalable solution, you can rapidly expand your operations without the need for a significant increase in manpower.

- 1 Real-Time Ticket Selling
- 2 Error-Free Ticket & Winning Validation
- 3 Quick-To-Launch New Game Scheme
- 4 Scalable & Adaptive Solutions
- 5 Reduce Inventory Costs
